### Part 3. Forestry

Attach a complete copy of your forest management plan. Indicate below who prepared the plan:

N.C. Division of Forest Resources

Consulting Forester

Owner

Other

Note: The property must be actively engaged in the commercial growing of trees under a sound management program as of January 1 of the year for which application is made.

#### Key elements in a written plan for a sound forestland management program are listed below:

- 1. Management and Landowner Objectives Statement—Long range and short range objectives of owner(s) as appropriate.
- 2. Location--Include a map or aerial photograph that locates the property described and also delineates each stand referenced in the "Forest Stand(s) Description/Inventory and Stand Management Recommendations" (item 3 below).
- 3. Forest Stand(s) Description/Inventory and Stand Management Recommendations -- Include a detailed description of various stands within the forestry unit. Each stand description should detail the acreage, species, age, size (tree diameter, basal area, heights), condition (quality and vigor), topography, soils and site index or productivity information. Stand-specific forest management practices needed to sustain productivity, health and vigor must be included with proposed timetable for implementation.
- 4. Regeneration-Harvest Methods and Dates--For each stand, establish a target timetable for harvest of crop trees, specifying the type of regeneration-harvest (clear cut, seed tree, shelter wood, or selection regeneration systems as applicable).
- 5. Regeneration Technique--Should include a sound proposed regeneration plan for each stand when harvest of final crop trees is done. Specify intent to naturally regenerate or plant trees.

NOTE: Forest management plans can and should be updated as forest conditions significantly change (e.g. change in product class mix as the stand ages and grows, storm damage, insect or disease attack, timber harvest, thinning, wildfire). The county will audit plans periodically and, to remain eligible for use-value treatment, the plan must be implemented.

#### Part 4. Affirmation

<u>AFFIRMATION OF APPLICANT</u> – I (we) the undersigned declare under penalties of law that this application and any attachments hereto have been examined by me (us) and to the best of my (our) knowledge and belief are true and correct. In addition, I (we) fully understand that an ineligible transfer of the property or failure to keep the property actively engaged in commercial production under a sound management program will result in the loss of eligibility. I (we) fully understand that loss of eligibility will result in removal from the program and the immediate billing of deferred taxes.

**Part 5.** Continued Use (Complete only if the property is currently in Present-Use Value and you are applying for immediate eligibility under the Continued Use exception. See G.S. 105-277.2(b2)(1) for full details.)

I certify: 1. The property is currently in Present-Use Value.

- 2. I intend to continue the current use of the land under which it currently qualifies.
- 3. I understand I will be responsible for all deferred taxes due because of any disqualification.
- 4. I ACCEPT FULL LIABILITY FOR ANY EXISTING DEFERRED TAXES.

Note: If the property is currently in Present-Use Value and liability is not accepted, the full amount of the deferred taxes will typically be due in the name of the grantor immediately. Liability need not be accepted and no deferred taxes are due for qualifying transfers pursuant to G.S. 105-277.3(b) and (b1). For example, liability does not need to be accepted for qualifying transfers to relatives. However, any deferred taxes existing at the time of transfer will remain a lien on the property. Owners already receiving Present-Use Value on properties not included in this application may wish to review the alternative provisions of G.S. 105-277.3(b2)(2).
